Nepal Earthquake Relief

We can lend a hand too!!

<http://www.tristatecsi.org>

On April 25th, a massive earthquake measuring 7.8 on the Richter scale occurred with the epicenter 48 miles northwest of Kathmandu, the capital of Nepal. The city is home to nearly 1.5 million inhabitants.

The earthquake flattened homes, buildings and temples, causing widespread damage across the region and killing more than 6,000 and injuring more than 10,000.

During this crisis, the Cultural Society of India (CSI) has decided to work with the America Nepal Medical Foundation (ANMF) to provide medical assistance to the injured.

<http://americanepalmedicalfoundation.com/>

Why ANMF?

- **There is ZERO overhead cost.** 100% of the donation goes to the hospital and victims. All members are volunteers, so all the money that is raised is sent directly to Nepal.
- CSI and ANMF are 501(C)(3) non-profit organizations. ANMF has been working in Nepal since 1997. **All donations are hence tax deductible.**
- ANMF has extensive local connections to hospitals, clinics, and medical personnel in Nepal and is utilizing these channels to streamline their relief efforts. This allows ANMF to quickly identify needs that may be missed by more established international organizations if they do not have an intricate network within Nepal.

Please donate generously and help us provide medical services to those affected! For each \$100 donated, you will receive a ticket to the Fundraising dinner to be held in the near future.

All checks should be made payable to the “**Cultural Society of India**” and handed to one of our volunteers.

CSI will send a collective donation to the ANMF and provide you with a receipt to use for tax deductions.

Checks can also be mailed to
